

## Savings Jar Tutorial

Savings Jar is a fun new feature in Online Banking that will round up your debit card transactions to the next whole dollar and deposit the rounded up funds into a savings share of your choice. A great way to put a few extra dollars off to the side for a rainy day!

To access Savings Jar settings, click on the Settings tab in Online Banking.

Click on the Accounts tab at the top of the page.

Click on Savings Jar.

At this page you will be able to opt in or out from Savings Jar. Upon setting up Savings Jar for the first time, you will be required to select a Checking Account with a debit card attached to watch for the card transaction and a Destination Account for your rounded transactions to be deposited to.

You can opt in or out of Savings Jar at any time by toggling the switch as seen below.
